ENGLISH VERSION  
CATALOG MAY 2022

[www.lampandchandelier.com](http://www.lampandchandelier.com)

Since 1983 we have expressed our passion for the lighting products through the creation of lamps and chandeliers made exclusively by hands, here in Italy.

We keep strong our willingness to design unique items, for the artisan and for the selection of precious materials that we use in the only one laboratory, in Sicily.

We want, more than anything else, that our customers can always choose an object with an evident artistic inspiration.

Crystal, Murano glass, brass, gold leaf, wrought iron, wood and decorations - strictly handmade - are the elements with which we forge our objects that we ship all over the world.
